Abstrak: This research aims at describing the implementation of teaching Audio Lingual Kumon EFL Method in teaching English at the VII Grade of SMP Negeri 5 Kisaran. The objectives of this research are to describe: (1) the implementation of Audio Lingual Kumon EFL Method in teaching English especially for the first students of SMP Negeri 5 Kisaran, (2) the problems faced by the teacher and get the solution in teaching English using Audio Lingual Kumon EFL Method in teaching English. The type of this research is descriptive qualitative research. The subject of this research is English teacher and the students for class VII of SMP Negeri 5 Kisaran. The object of this research is teaching-learning process of English by using Audio Lingual Kumon EFL Method. The writer uses descriptive method as method of collecting data in this study by employing observation, interview, and document. The writer gets the data of this research from field note, observation, and interview. The result of the analysis shows that the goals of teaching English by using Audio Lingual Kumon EFL Method are the students more active in the word and sentences repetition drilling. This technique was appropriate to the junior high school because it made the students easier to memorizing new words.

Kata kunci: Audio Lingual Kumon EFL Method, teaching English, junior high school

INTRODUCTION

English is an international language used by everyone to communicate with others who come from different countries and it is very important for the development of education. In Indonesia, English is regarded as a foreign language. It is only taught in formal education, but Indonesia has a big motivation to learn English especially for the first students of SMP Negeri 5 Kisaran.

Audio Lingual Kumon EFL Method is a style of teaching used in teaching foreign language. By observing students, Kumon constantly evaluates and revises the worksheets of all of the programs to ensure there is nothing hindering students from progressing smoothly. This method uses repetition, replacement, and question answer to drill speaking skill especially student’s vocabulary. The teacher is easier to control the student’s behavior and student’s vocabulary. After that, the teacher can know the memorization of the students’ vocabulary. As mentioned, lesson in the classroom focuses on the correct imitation of the teacher by the students. Not only are the students expected to produce the correct output, but attention is also paid to correct pronunciation and to foster a love of reading and learning in every child. Students range from age two to older children, building skills from reading and word recognition to advanced level comprehension with the ability to critique complex passages of text. Vocabulary, grammatical precision, memorisation skills and the ability to compose answers are gradually accumulated through different genres of text, familiarising students with both fiction and non-fiction, expanding their knowledge of the world and introducing them to new areas of interest.

In this research, the writer takes SMP Negeri 5 Kisaran as a place to be observed. First, because there are some students who have problem in learning English. So, the writer is very interested in studying the process of teaching English at elementary school. The second reason the writer makes this research is she can get the great knowledge and experience about how to teach English using Audio Lingual kumon EFL Method, especially to teach first students of junior high school.

RESEARCH METHOD

The type of this research is descriptive research. the purposes of this research is describe the implementation of audio lingual kumon EFL method in teaching English by the teacher of the first year of SMP Negeri 5
Kisaran, describing the problem faced by the English teacher in the teaching English at SMP Negeri 5 Kisaran.

According to Bambang Setiyadi (2006:181) said that the methods for teaching children should maintain the characteristics of children in order that the students can learn the target language optimally. One of the common principles that may be considered to develop or choose methods for children is that learning a foreign language.

The subject of the study is the English teacher and the first year students of SMP Negeri 5 Kisaran. The object of the study is the Implementation of Audio Lingual Kumon EFL Method in Teaching English at the first year of SMP Negeri 5 Kisaran. The Audio Lingual Kumon EFL Method are designed in a way that enables students to progress gradually but steadily from easy to difficult material. For example, explanations and example problems are included with new exercises in the introductory sections, which allow students to advance by self-learning (Kumon 2009:8). Second (foreign) language learners can differ in many ways Skehan (1989:4) states some of the psychological differences of learners include age, intelligence, aptitude, motivation, attitude, personality, and cognitive styles. We will limit ourselves to a discussion of motivation and attitude since the two differences of language learners (Els et al, 1984: 115). The two affective characteristics are often considered non-innate differences, which can be learned by language learners or conditioned by language teachers with conditions that are needed for effective language learning.

The data of this research is the result from the observation of the implementation of Audio Lingual Kumon EFL Method in teaching English and the result of interview also field note. The sources of the data in this research are event, informant, and document.

In this research, the writer uses three kinds of method of collecting data. They are as follows observation, interview, and document analysis. In the analyzing data, the researcher uses qualitative research. To analyze the data, the researcher takes these following procedures: analyzing the result of the implementation of Audio Lingual Kumon EFL Method in teaching English, analyzing the teacher’s problem faced by the teacher when the teacher teaches English using Audio Lingual Kumon EFL Method, and drawing conclusion and based on the data analysis

RESULTS AND DISCUSSIONS

The results of the implementation of audio lingual Kumon EFL method in teaching English to the first students of SMP Negeri 5 Kisaran and the problem faced by the teachers when the teachers teaching English using audio lingual method.

The Implementation of Audio Lingual Kumon EFL Method in Teaching English at the First Student of SMP Negeri 5 Kisaran.

In this session, the researcher observed the activities that were done by the teacher during the observation in SMP Negeri 5 Kisaran. The observation was done three times; they are on march 29 and April 5, 12, 2018. Based on the observation, the writer concludes that the teacher always uses similar steps in teaching English. The process of teaching- learning English can be divided into three steps. The steps are opening activity, main activity, and closing activity.

b) The Teacher’s Role Based on the writer observation, the writer concludes that the teacher applies some roles in his English teaching learning process by applying Audio Lingual Kumon EFL Method. The teacher’s roles in this part are presented into some kinds of aspects; the teacher functions in the fulfillment of teaching-learning activities, the teacher’s roles in influencing over learning, and the teacher and the learner interaction.

The first is the teacher functions in the fulfillment of teaching-learning activities. The writer found that the teacher gives drilling model; repetition (words and sentences repetition).

• Words Repetition

In this activity. The teacher guides the students to read the text from the book. The
teacher gives repetitions to each student with the different level of the Kumon materials. The level from 7A -2A at www.kumon.com, or from the easy program do the exercises to the high level in this classroom and as the progress in learning English especially for students at SMP Negeri 5 Kisaran.

• Sentence Repetition

This activity, the teacher asks the students to repeat after the teacher reading the sentences of the text in the book. The second of the teacher’s roles in Audio lingual method is teacher gives influence over learning. The writer found that the teacher role in the teaching-learning process is by encouraging the learner to memorize the words. The teacher guides the students to read the dialog. After reading the text, the teacher instructs the students to find the meaning of the words and make the right sentences and complete sentences (subject and verb) in the story.

The students can open the dictionary if they found the difficult words and known the tenses as the learning activity of the text. Then the students read the dialog in pair and try to practice it in front of the class. The third is the teacher as a counselor. If the students get some problem related to the material in learning process they will ask the teacher. The teacher helped the students to explain the material until the students’ understand the material.

The last, as the problem solver in the teaching-learning process, the students ask and answer the teacher question or question in the book. Unconsciously, the students also have solved their problem by practicing the language in pair and In front of the teacher

The Problems Faced by the Teacher and the solution in Teaching English Using Audio Lingual Kumon EFL Method.

1. Limited time

Limited the time was the problem faced by the teacher in the implementing Audio Lingual Kumon EFL Method. The time was only 2 x 35 minutes in a week. It is used to teach all the language skills, namely: writing, speaking, and reading, listening. So, the time was not enough for all the language skills and the teacher get more difficult to give the student’s activity in the class. For example: when the teacher gives more exercises in the class, the teacher only continue a halfway, because the time is over.

When the teacher gives homework to the students, in the next meeting their homework will be presented in front of the class, but the teacher only asks other students to give response to their work because of the limited time.

2. Motivation of the students.

Motivation of the students in learning English is one of the factor that become problem faced by the teacher in the teaching learning using Audio Lingual Kumon EFL Method. Based on the interview with the English teacher, the students sometimes have good mood to study English, but sometime they are bore to study English given by the teacher. It occurred not all the students, but occurred in part of the students who did not work well in the process of teaching English. So, it was little problem by the teacher in the implementing Audio Lingual Kumon EFL Method in teaching English. So, the teacher should give the motivation and stimulus to the students. By giving motivation and stimulus, it built the student’s spirit in the class and rehearsed their skill throwing this method.

3. Different capabilities of the students.

Different capabilities of the students become the problem faced by the teacher. Each students has different capability in receiving the material that given by the teacher. In teaching English, the teacher gives the language skills; speaking, reading, writing, and speaking. In junior high school, the teacher still focuses on meaning, spelling, and pronunciation. Based on the writer observation, the students still get difficulties in memorizing the words, meaning, and spelling new word correctly. It occurred not all the students, but occurred in some part of students. It shows that different students have different capability.

In this research, the writer also presents the solution to solve the problem in teaching English using Audio Lingual Kumon EFL Method. They are as follows.

1. The key of success is being disciplinary in studying, and on time. If the Students are disciplinary in time and studying, it can be easier for the students to understand the material.

2. The teacher gives more motivation to the students. The motivation is important in the student’s progress. The English teacher is always motivating the students to study hard before the students began to start the lesson. English is important in communication with
In general, the implementation of Audio Lingual Kumon EFL Method in teaching English at the first students of SMP Negeri 5 Kisaran was not fully appropriate to the principle of classroom technique of Audio Lingual Kumon EFL Method. Based on the finding, the teacher still used native language especially when explaining the words meaning.

2. The teacher’s role of Audio Lingual Kumon EFL Method.
The teacher’s role are the teacher functions in the fulfillment of teaching-learning activities, teacher gives influence over learning, teacher as a counselor

3. The Student’s roles of Audio Lingual Kumon EFL Method.
Student’s roles are presented in the learners view as a processor, performer, and problem solver.

CONCLUSION

The conclusion of this research study is supported by three findings. The conclusions as follows:
1. The classroom activity of Audio Lingual Kumon EFL Method.
